# Welcome

## To

our first edition of DESIGN MATTERS, our own 'mini-mag' of Interior Design & Décor. We're bringing you the latest in products and decor and we'll touch on some of the trends that are coming your way.

We packed the pages with lots of 'eye-candy' to inspire you to make the most of the space that you have to work with., or maybe it will spur you to take on that next project you've been letting slide.

We'll introduce you to some options you might not have considered before because;

A: you didn't know they existed,

B: because I get really excited and want to share these great finds with you,

C: the quality of the pieces are stunningly beautiful

These pieces were thoughtfully selected and brought to life by artisans from select European countries where craft, design, quality and attention to detail are still alive and well, and celebrated.

And finally we will bring you some behind-the-scene peeks at projects in the works and hopefully SOMETIME this year we'll get to photograph the amazing collaborations we've enjoyed with clients who have endured A LOT!

This FIRST EDITION is all about WINTER WHITES!  
White after labour day - you betcha and we're all in!  
White does not have to be boring or sterile, It can be warm and reflective when paired with the right complements in the right setting.

White CAN be inspiring!

Doer of all things

# CONDO CLASSIC

*Downsizing  
in style*

We were retained to help client downsize from a large country home to a 'new construction' condo in the city. One of the main goals was to create as much storage as possible in a very small footprint, while incorporating some of their prized antiques, and other cherished pieces. Here are some of the highlights of main living areas.

# BEFORE

New view  
from kitchen

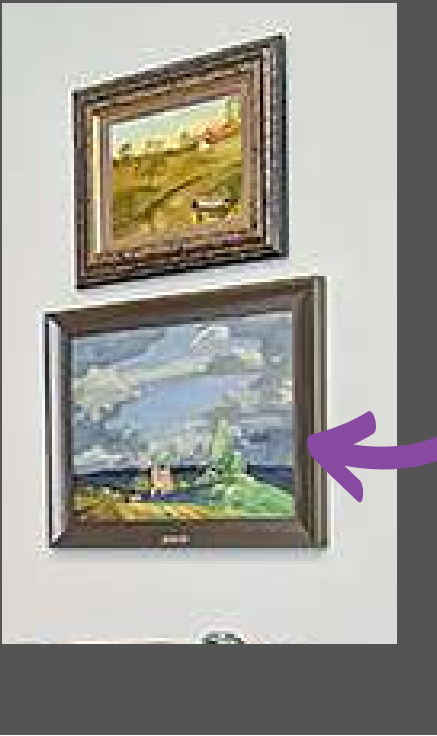

Clients have an appreciation for classical architecture and interiors, and this new condo was lacking in both. So with a lot of planning, and millwork, we transformed this 'loft' style condo into a classic city pied-a-terre. We cleverly combined some of their antique pieces of furniture and accessories with new transitional pieces for a condo that blends old and new perfectly. Warm, inviting and classically timeless.

# AFTER

New Fireplace & Custom Cabinetry  
Focal Point

Reframed antique ART with contemporary frames for an updated look in the new condo

Pullout storage for CD & DVD

## *What We Did*

Glass front cabinets for AV peripherals

LIFT UP doors across the top for add'l off-season storage

FILE cabinets incorporated on left side of fireplace

# BEFORE - KITCHEN

SMALL footprint BIG impact

# AFTER

Stacked cabinets with lighting for 'pretty' storage

Glass tile backsplash to add some shimmer and reflect the light + undercabinet lighting

Added an ISLAND for extra prep space plus snack bar and tucked m/wave under the counter to reduce visual clutter overall.

Extended line of cabinets beyond what was in the building plans for more counter space and extra accessible drawer storage

Using up every inch of space on both ends of the island with cabinets and added electrical outlets for multi-function

Incorporated clients comfortable stools and upgraded the fabric, for a blend of old and new.

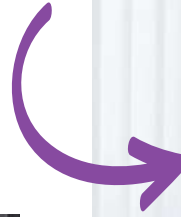

# BLENDING OLD & NEW

Kept the swivel stools upgraded fabric.

Softened the large expanse of windows with floor to ceiling sheer verticals

Acrylic 'see-through' coffee table to keep things light and airy in this small living room

Blended antique grandfather clock, and some of the clients earlier pieces with newer transitional pieces for a cohesive and warm, inviting room

Re-purposed the beautifully patina'd leather chair in the space for the Mr.

# SHINE A LIGHT ON IT

A photograph of two white table lamps with gold accents and a gold sunburst mirror on a white paneled wall. The lamps have a tiered, fluted design with a gold band around the middle. The mirror is circular with a gold frame and radiating gold slats. The background is a white paneled wall.

LITHOS

*A sample collection of exclusive  
lamps in all shades of white*

LAMPS FOR EVERY STYLE  
AND FOR EVERY ROOM
